## SL-CPD PILOT TO CLOSE CHECK VALVE, POPPET

#### DESCRIPTION

16 size, 1 5/16-12 thread, "Super" series, pilot to close, poppet check valve.

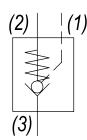

#### OPERATION

The SL-CPD allows free flow from (3) to (2), and blocks flow from (2) to (3). Flow will be blocked from (3) to (2) when sufficient pressure is applied at (1). The cartridge has a 2:1 pilot ratio, meaning that at least one half of the load pressure held at (3) is required at (1) to close the valve. The check is spring biased to assure holding in static or no-load conditions.

#### FEATURES

- Hardened seat for long life.
- · Industry common cavity.
